Scarcity and Efficiency: The Twin Themes of Economics

Dr. Madhumita Das

Centurion
UNIVERSITY

Shaping Lives...
Empowering Communities...

Recapitulation

“Economics is the study of how societies use scarce resources to produce valuable goods and services and distribute them among different individuals”

Two Key Ideas

- Scarcity
- Efficiency

Centurion

*Shaping Lives...
Empowering Communities...*

Consider these

Consider a world without scarcity. If infinite quantities of every good could be produced or if human desires were fully satisfied, what would be the consequences?

Empowering Communities...*

Continued

- People would not worry as they could have everything they wanted
- Businesses would not need to fret over the cost of labor or health care
- Governments would not need to struggle over taxes or spending or pollution
- All of us could have as much as we pleased
- No one would be concerned about the distribution of incomes among different people or classes

What is reality

- No society has reached a utopia of limitless possibilities
- Ours is a world of **scarcity**, full of **economic goods**
- A situation of **scarcity** is one in which goods are limited relative to desires.

Empowering Communities...*

Why Efficiency

- Given unlimited wants, it is important that an economy make the best use of its limited resources
- This implies efficiency
- **Efficiency** denotes the most effective use of a society's resources in satisfying people's wants and needs.

Continued

Economic efficiency requires that an economy-

- Produce the highest combination of quantity and quality of goods and services given its technology and scarce resources
- An economy is producing efficiently when no individual's economic welfare can be improved unless someone else is made worse off.

Things to Think

With the rapid economic growth, does production in the United States is enough to meet everyone's desires?

What is the Role of Managerial Economics

- The essence is to acknowledge the reality of scarcity and then figure out how to produce most efficiently
- That is where ME makes its unique contribution
- It helps the managers how to produce efficiently and achieve the objectives
