

Climate Change, Sustainability and Organisations (CUTM 1015)

PROJECT WORK FOR 1 CREDIT

Each group has been assigned *Climate Change projects* which they have jointly do.

What we expect from you?

- Read the case very carefully and use your dictionary to understand some terms which you do not know
- Also refer to our slides in courseware on different aspects of climate change to understand it in detail or if you need some specific data
- First identify the issues and problems relating to climate change in the case
- Secondly find out the challenges
- Thirdly list the strategies/suggestions/recommendations to mitigate or address climate change impacts
- Fourthly what are the lessons learnt
- Use related pictures and videos to make your project more attractive and analytical

Deliverables

Submit your project online giving atleast 5 pages of write up in your own words (1.5 space, Times Roman 12), excluding pictures/figures and videos

Each group has to make presentation online – date will be given to you (second internal).

Last date for submission: 2 Nov 2020

For the Sustainability Project:

The same groups for the climate change project will undertake the sustainability project.

Each group will identify one organisation which is relevant to their branch e.g Agriculture, Horticulture, Aquaculture, Biotechnology, Civil (construction, transportation, highways etc.) Similarly, for EEE, ECE and CSE they will identify one organisation relevant to their branch. Mechanical can do on Automobile industry. LOOK AT THE NET and get the information. Please select an organisation which has production activity and have to report on sustainability.

19th Oct (Mon) class – all students will report on the organisations that they have identified for the sustainability project.

Sustainability reporting framework has been taught in the class. There are 2 slides that are already there. One more I have uploaded which is a simplified version. Please go through it carefully.

Deliverables:

- 1) You will make 10 points on sustainability reporting (which means that you have to say what the organisation has to report on sustainability). Please read all the slides on sustainability to understand what it means. Remember the three pillars of sustainability are economic, social and environment.

- 2) After that you will write concluding remarks - 2 paragraphs of 5-6 sentences each on what you think of the sustainability framework reporting of the organisation.
- 3) Submit your project on line. Include photos and videos if you like to make your project attractive.

Last date for submission is – 2 Nov 2020

There will be a presentation for which the date will be notified to you by us.

NOTE: NO COPY PASTE ALLOWED (THOSE WHO WILL DO IT WILL BE MARKED ZERO). NO COPYING FROM EACH OTHER. IN CASE OF THE SUSTAINABILITY PROJECT, ALL GROUPS SHOULD HAVE DIFFERENT ORGANISATIONS.
