

Program
ASPG3205

6th Semester Practical Examination: April 2023

**CROP IMPROVEMENT-II (FIBRE, SUGAR, STARCHES, NARCOTICS,
VEGETABLES, FRUITS & FLOWERS)**

SET-A

(15marks)

1. Scientific name of Bread wheat.....
2. Origin of diploid wheat.....
3. Scientific name of barley.....
4. Chromosome number of barley.....
5. Full form of DWR, Karnal.....
6. Progenitor of *Avena sativa*.....
7. Scientific name of cowpea.....
8. Indian Institute of Pulses Research located at
9. Papilionaceous flower observed in which crops.....
10. Genome of *Brassica juncea*.....
11. Berseem belongs to which family.....
12. Number of stamen in berseem is.....
13. Inflorescence of sunflower is known as.....
14. Flowers of outer whorls of the sunflower head are called as.....
15. Disc florets of sunflower are
