

The NDP was implemented at district level by a team of 4 subject matter specialists. Who were entrusted with the responsibilities to conduct the demonstration on farmers field. They also organise field days at the time when important field operations were performed. Thus a large number of farmers got educated about new technology demonstrated on farmers field.

In all 25 demonstrations per season were laid on the farmers field in each district. Very intensive cropping system techniques of soil and water management including use of machinery and plant protection were demonstrated under National Demonstration Project (NDP). Thus these demonstration served as pace settlers which are the first demonstrations and are to be emulated by local extension workers and farmers.
