

Types of storage structures

1. **Conventional storage structures**
2. **Scientific storage structures**
3. **Special storage structures**

1. Conventional storage structures

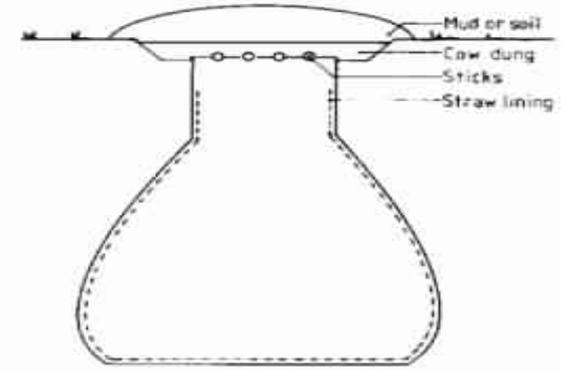

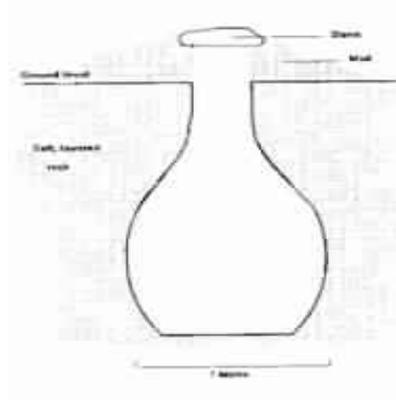

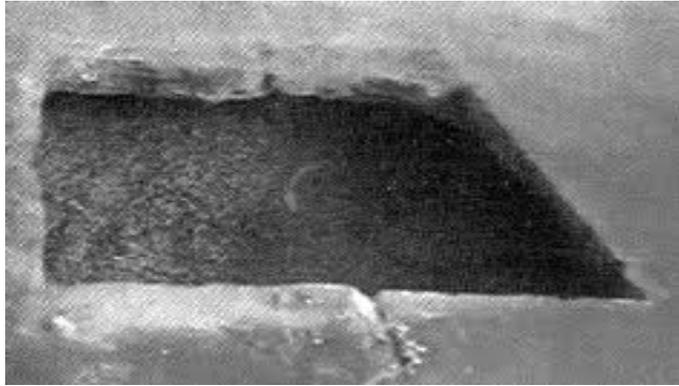

A. Under ground storage structures

B. Above ground storage structures

1. Conventional storage structures

A. Under ground storage structures

a) Hagevu

1. Conventional storage structures

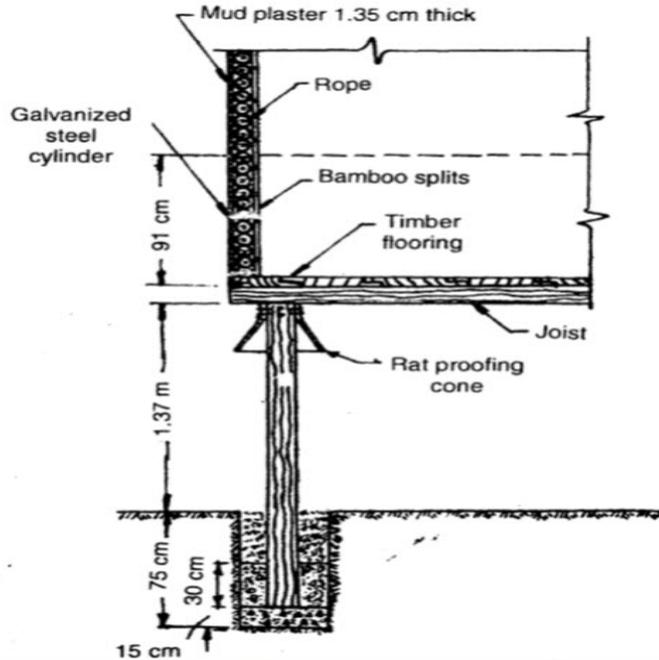

B. Above ground storage structures

a) Kothi

1. Conventional storage structures

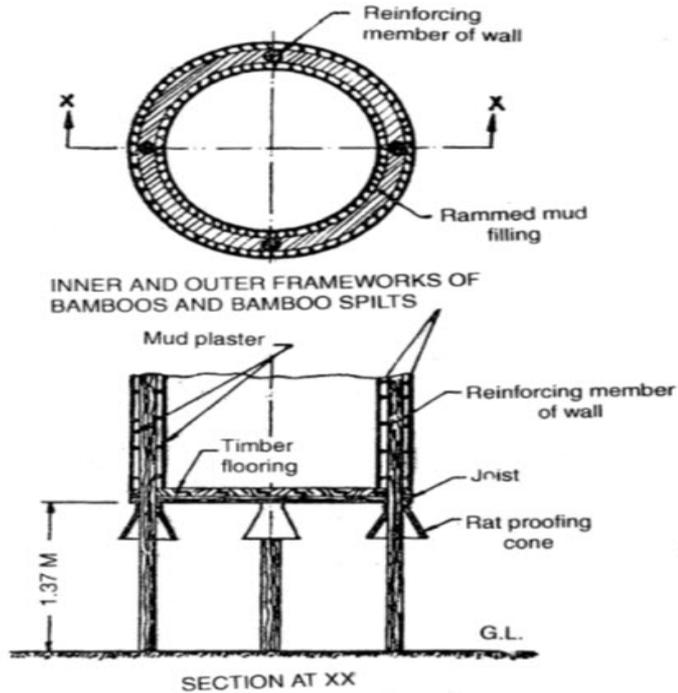

B. Above ground storage structures

b) Morai / Mojor

1. Conventional storage structures

B. Above ground storage structures

1. Conventional storage structures

B. Above ground storage structures

d) Palaor chatakka

1. Conventional storage structures

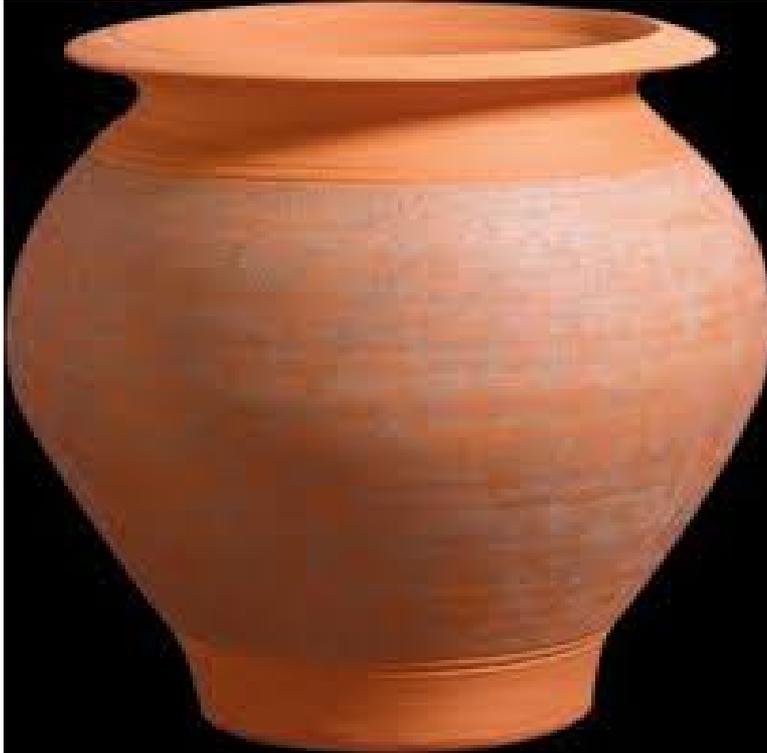

B. Above ground storage structures

e) Wooden bins

1. Conventional storage structures

B. Above ground storage structures

f) Jala or Mutka

1. Conventional storage structures

B. Above ground storage structures

g) Bag storage

2. Scientific storage structures

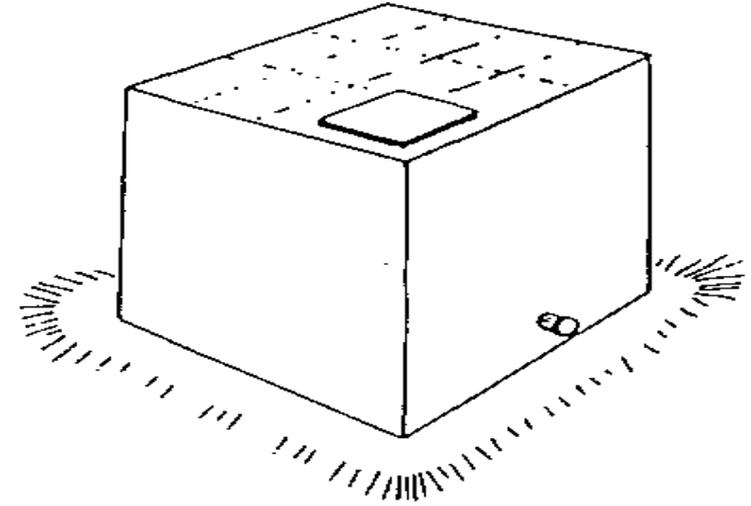

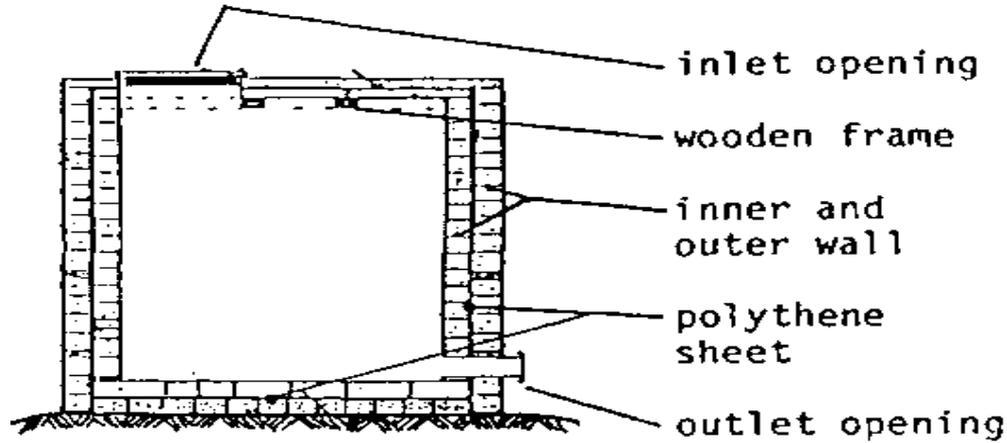

A. Indoor storage structures

a) Indoor metal bins

2. Scientific storage structures

A. Indoor storage structures

b) Pusa bin

2. Scientific storage structures

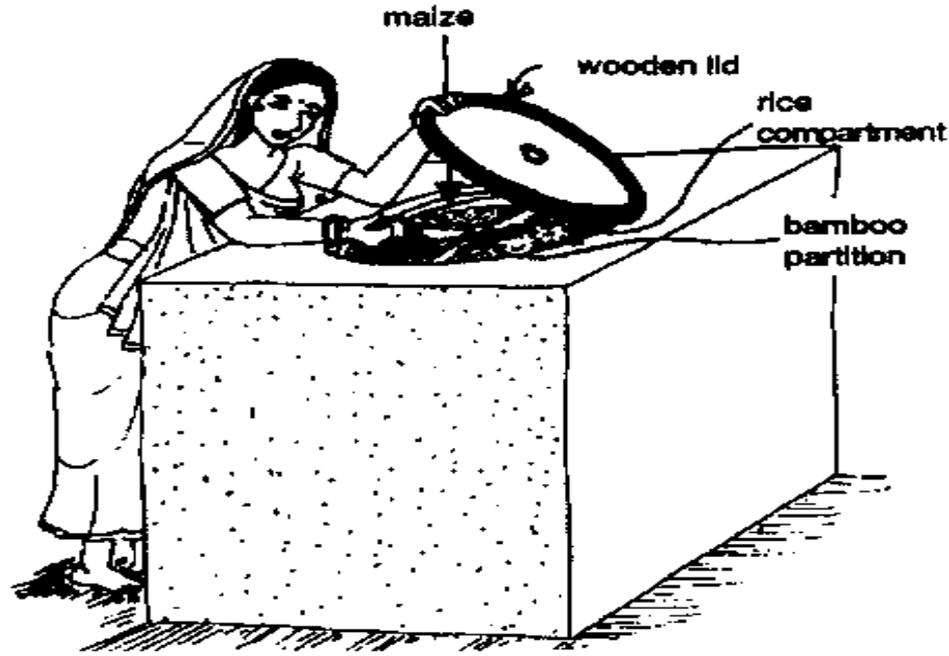

A. Indoor storage structures

c) Mud kothi (Mud bin)

2. Scientific storage structures

A. Indoor storage structures

e) Pucca kothi

2. Scientific storage structures

A. Indoor storage structures

f) Aluminium bin

2. Scientific storage structures

A. Indoor storage structures

g) Gharelu bhandar

2. Scientific storage structures

B. Outdoor storage structures

a) Cover and plinth storage

2. Scientific storage structures

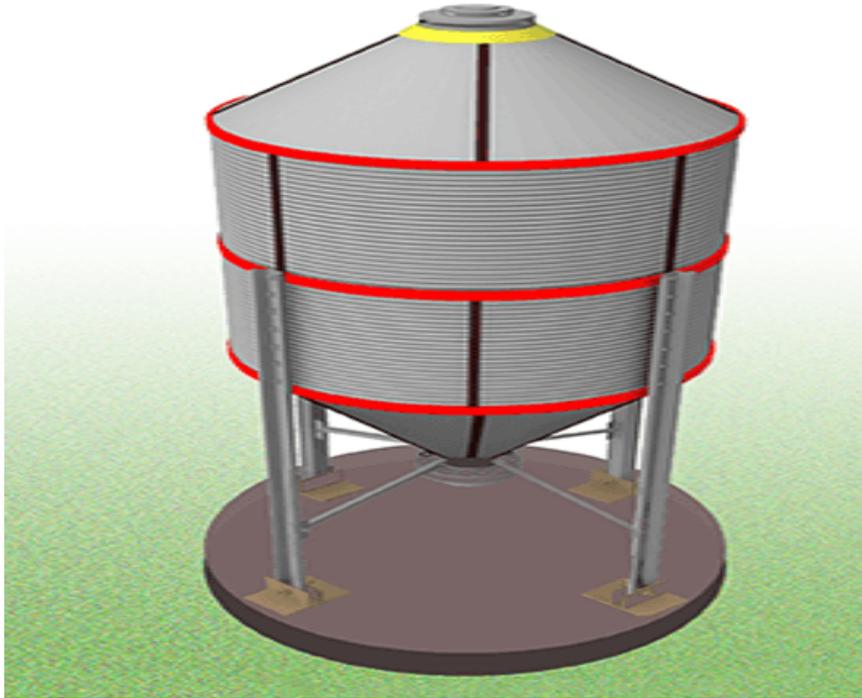

B. Outdoor storage structures

b) Flat bottom metal bin

2. Scientific storage structures

B. Outdoor storage structures

c) Hopper bottom metal bin

Contd.....

Storage structures & their significance

2. Scientific storage structures

B. Outdoor storage structures

a) Silo storage

3. Special type of storage structures

Air tight storage

Cool / storage
