Center for Smart Agriculture

Protected floriculture

Module 2: Components Pre-requisites for protected cultivation of flower crops

Session: Types of containers used in protected structure

Centurion
UNIVERSITY

*Shaping Lives...
Empowering Communities...*

INTRODUCTION

- Containers provide optimum condition for germination of seed and growth and development of transplants.

Centurion
UNIVERSITY

*Shaping Lives...
Empowering Communities...*

ADVANTAGES

- Increases production capacity
- High quality product
- Uniformity in plant growth
- No transplanting shock
- Easy maintenance
- Better water drainage and aeration
- Easy to monitor
